Austin N. Heller,
Secretary

Division of Environmental Control

December 13, 1972

Mr. Joseph Dall Aversano
Delaware Sand & Gravel Company Incorporated
229 Grantham Lane
New Castle, Delaware 19720

Dear Mr. Dall Aversano:

This is to advise that Certificate of Approval APC - 70/54 is hereby reinstated. This action is being taken in consideration of data from test wells placed by the County near your property which indicate that the types of material deposited at your landfill site are not causing contamination at the test well.

It has come to our attention, however, that the dumping of wooden pallets, cardboard and polypropylene has been occurring recently during the period in which your Certificate was suspended.

In view of this reinstatement of the Certificate we are not considering enforcement action at this time but we caution you that any dumping of any materials not authorized during the period in which the Certificate is suspended or revoked will be cause for action in the future.

Very truly yours,

Robert R. French, Manager
Air Resources Section
Division of Environmental Control
